DATE: JUNE 30th, 2022

In compliance with the legal provisions in force, Construcciones El Cóndor informs that today the Colombian Stock Exchange (BVC) sent information confirming a significant change in the shareholders structure of the Company as consequence of the acquisition by Vince Business Colombia S.A.S (company linked to Colpatria Group) of 61,157,768 shares, which added to the 6,229 shares that it already had in the Company, accumulates a participation 10.6% of the Company's shares.

For Construcciones El Cóndor it is very satisfying that a Group of solidity, solvency and track record such as Grupo Colpatria has invested in the Company. The knowledge they have of the infrastructure sector, being important players in it, is a great contribution to our Company.

We can say that it is a meeting between companies that share values and vision, which will undoubtedly generate great benefits for the development of the country, as well as a great example of the trust and credibility that we generate in our different groups of interest and reaffirms us as a sustainable Company that for more than 40 years has worked for the development and connection of the territories in Colombia.
